

Specifications for AvPro Model TE440 Tone Generator

Product Description: The AvPro TE440 tone generator is a microphone input testing device, consisting of a tone generator and a phantom power detector built into a standard 3 pin XLR male connector. When inserted into a microphone input channel, the LED will light red if phantom power is present and the generator will inject a 440 Hz sine wave into the system.

Output: 440 Hz sine wave at -48dBm (red LED)

Frequency Accuracy: $\pm 1\%$ stability at 20° C

Distortion: 1.5% nominal

Power Requirements: 12V DC to 48V DC (phantom power), 10mA

Operating Range: -40° F to 185° F (-40° C to 85° C)

Size: 2.75" (70 cm) x .75" (19 cm)

Weight: 1.5 oz.

Enclosure: Zinc diecast metal with black chromium finish, gold plated pins

Warranty: 1 year parts and labor
